Dear Sir,

In connection with my work at this College I am deeply interested in Timbers, further, it is my hobby, hence my study goes beyond trade requirements. I understand that you too are interested in this subject and I am wondering whether you would care to exchange specimens. I can offer samples of English and Colonial Timbers in exchange for those growing in South America. My standard size is $8 \times 3\frac{3}{4} \times \frac{1}{2}$ inches, I like to receive these rough sawn, only, so that I can smooth them down myself.

If you are interested in such an arrangement
I could send you a list of about 100 kinds
for immediate exchange. In the event of
you not being interested in my suggestions
you may know of another person who is,
if so, I should be pleased to be put into
touch with him so that we can work to
our mutual advantage.

May I hope to hear of your interest
and suggestions soon.

Yours very truly,
George A. Deacoch.
